

Evidence Room

Agents that earn responsibility.

Custom Agent Blueprint — Service Brochure

Client-specific agent design when your ERP objects, policies, or edge cases need tailored blueprints.

SKU ER-CUSTOM · Fixed fee bands \$1,500–\$3,000 · 6–8 pages

v1.0 · Commercial pack · Not legal advice · Not a software runtime

1. Who Custom is for

Organisations that have completed readiness (and usually Starter or Pro literacy) and need 1–3 agent blueprints fitted to their ERP fields, approval matrices, shared-services model, or industry-specific invoice classes.

2. Fee bands

Band	Fee	Typical scope
Focused	\$1,500	One agent; limited ERP variance
Standard	\$2,200	One to two agents; moderate policy complexity
Complex	\$3,000	Up to three agents; multi-entity or heavy SoD edges

Fees are fixed by band for design and fulfilment — not contingent on savings or KPI outcomes. Confirm live price at engagement.

3. What you receive

- Current-state map for the scoped process slice
- Agent charter(s) with stage path and forbidden actions
- Control notes and evidence standard
- Pilot plan with KPIs and kill-switch
- Walkthrough session (remote)
- Disclaimer and licence addendum

4. What Custom is not

- Not ERP development or middleware build (unless separately scoped)
- Not payment execution or bank connectivity
- Not an audit opinion or SOX certification
- Not a guarantee of cost/invoice reduction

5. Engagement flow

Intake questionnaire → scoping call → quote/SOW for fee band → design → walkthrough → optional follow-on Team facilitation. Prefer application + manual fulfilment over impulse checkout for services clarity.

6. Intake themes (preview)

- ERP / AP automation platforms in scope
- Invoice classes and volumes
- Existing exception taxonomy (if any)
- SoD and bank-change controls today
- Target agents (A01–A16 or other)
- Sandbox availability
- Success KPIs and non-goals

7. Working norms

- Humans review before delivery
- No production credentials in marketing forms
- Client artefacts retained only as needed, then returned/deleted per agreement
- Claims blacklist: guaranteed savings, fraud certainty, audit pass promises

8. How Custom sits with Pro and Team

Pro provides the generic spine. Custom fits the edges. Team installs the people system. Buy Custom when generic blueprints would misstate your ERP objects or SoD — not as a shortcut past readiness.

Disclaimer

Evidence Room provides methodologies, diagnostics, and design artefacts. We do not guarantee cost reduction, ROI, fraud prevention, or audit outcomes. Industry benchmarks attributed to Ardent Partners (2025) — average cost per invoice **\$9.84**, exception rate **18.4%**, STP **35.4%** — are third-party reference points only and are not Evidence Room performance claims. Agents must operate under your controls, policies, and human accountability. Evidence Room is not your ERP vendor, bank, or auditor.

AI agents can be wrong. Humans remain accountable for approvals, postings, payments, supplier master changes, and representations to auditors and regulators.

Appendix — Evidence pack checklist (1)

Every material agent decision should leave an evidence pack an auditor can follow.

This appendix reinforces Evidence Room operating discipline. It is educational and does not modify your licence, create warranties, or guarantee operational outcomes.

- Inputs used and source system references
- Rule or model version hash
- Confidence or variance table
- Human override identity and rationale
- Timestamp and Invoice Case ID
- Kill-switch status at time of action

Remember: Observe → Recommend → Draft → Execute (narrow) → Expand. Demotion is hygiene. Ardent Partners (2025) benchmarks are third-party survey averages for context only.

Operating note 1: maintain named owners for agent, control, and KPI. Refuse unsupervised payment release. Keep evidence packs complete. Review overrides weekly. Treat silence in logging as a defect.

Operating note 2: maintain named owners for agent, control, and KPI. Refuse unsupervised payment release. Keep evidence packs complete. Review overrides weekly. Treat silence in logging as a defect.

Operating note 3: maintain named owners for agent, control, and KPI. Refuse unsupervised payment release. Keep evidence packs complete. Review overrides weekly. Treat silence in logging as a defect.

Operating note 4: maintain named owners for agent, control, and KPI. Refuse unsupervised payment release. Keep evidence packs complete. Review overrides weekly. Treat silence in logging as a defect.

Appendix — Kill-switch protocol (2)

A kill-switch is useless if nobody has rehearsed it.

This appendix reinforces Evidence Room operating discipline. It is educational and does not modify your licence, create warranties, or guarantee operational outcomes.

- Named operators
- Disable write paths first
- Notify AP Manager / Controls / IT
- Record demotion stage
- Preserve logs
- Retest after prompt/model change

Remember: Observe → Recommend → Draft → Execute (narrow) → Expand. Demotion is hygiene. Ardent Partners (2025) benchmarks are third-party survey averages for context only.
