

CUSTOMER NAVIGATION

Start here

Twelve steps. One increment. Evidence decides.

START HERE — Evidence Room / AP Agent OS

Brand idea: Proof before permission.

Line: Agents earn responsibility. Evidence decides.

Default level: L0 Observe

Do not: stand up sixteen agents, grant L3 in a kickoff, or upload production invoices back to Evidence Room.

Open this file first. The path is **01–12**. Each step names the file to open next. If you skip to Agent 12 because payments are painful, you have left the product.

Before step 01

1. Read `LICENCE.txt` in the zip root. Note your class: Individual, Professional, or Team.
2. If you have not run the diagnostic, do it without production files: <https://evidenceroom.ai/diagnostic> — the instrument also lives in `../01_FREE_AP_AI_READINESS/`.
3. Appoint a human who will own this path. A mailbox is not an owner.

Starter buyers: begin with `../02_AP_AGENT_STARTER/` plus agents **01, 02, 03, 10, 16**, the method, and the ladder. Steps that cite Governance, Controls, or the full KPI volume are Professional/Team — read the overview anyway; do not invent those chapters. Team buyers also hold `../04_AP_AGENT_OS_TEAM/`.

01 — Know what you bought

What to do. Understand the object. This is an operating system for the *agent layer* across Accounts Payable. It does not replace SAP, Oracle, D365, NetSuite, Workday, Coupa, Tipalti, or your team.

Open: `README.md` (this folder) → `../03_AP_AGENT_OS_PRO/Agent_Library/00_AGENT_STACK_OVERVIEW.md`

Done when. You can say, in one sentence, what the OS is and what it is not.

02 — Learn the rule of permission

What to do. Internalise L0–L4 and the four human classes. Payment release, vendor bank-change, policy exceptions, and legal disputes stay human. Confidence is not a vote.

Open: `../03_AP_AGENT_OS_PRO/Agent_Library/17_AUTONOMY_PROGRESSION.md`

Then: `../03_AP_AGENT_OS_PRO/Agent_Library/18_HUMAN_VS_AGENT_DECISION.md`

Done when. You can refuse a request to “just let the model pay.”

03 — See the sixteen jobs (or the five)

What to do. Read the stack map. Professional/Team: skim all sixteen identity blocks. Starter: read 01, 02, 03, 10, 16 only.

Open: 00_AGENT_STACK_OVERVIEW.md (table) and the agent files you will actually touch.

Done when. Each agent you will stand up has a named human role on a scrap of paper — later a register.

04 — Map how work actually moves

What to do. Observe the live desk. Do not agentise the SOP you wish you had.

Open: ../03_AP_AGENT_OS_PRO/Process_Mapping/00_METHODOLOGY.md

Then (Pro/Team): 01_PROCESS_DISCOVERY_GUIDE.md → 02_TRANSCRIPT_TO_WORKFLOW.md

Done when. You have named one legal entity, one channel, and one document type for the first slice.

05 — Write the first slice down

What to do. Entity × channel × document × vendor set × amount cap. Narrower than “all invoices.”

Open: First-90-day section of each opening charter (01, 02, 03, 10, 16).

Standard: ../03_AP_AGENT_OS_PRO/Agent_Library/19_AGENT_CHARTER_STANDARD.md

Done when. The 90-day scope is a proper subset of in-scope. If it is not, the charter fails.

06 — Structure the desk (SOP and RACI)

What to do. Name Accountable humans. Agents never hold A.

Open (Pro/Team): ../03_AP_AGENT_OS_PRO/Process_Mapping/03_SOP_GENERATOR_FRAMEWORK.md
../03_AP_AGENT_OS_PRO/Process_Mapping/04_RACI_STANDARD.md

Starter: write a one-page RACI for the five agents. Upgrade if you need the standard.

Done when. No blank, vendor, or mailbox in the Accountable column.

07 — Bind governance before a write verb

What to do. Read how accountability, SoD, injection, hallucination, release, and fallback work. You do not need to complete every [BUYER] field today. You need to know which fields exist.

Open (Pro/Team): `../03_AP_AGENT_OS_PRO/Governance/00_GOVERNANCE_FRAMEWORK.md`
Then `01_AUTONOMY_POLICY.md` when you are ready to configure a ceiling.

Starter: use 17 and 18 as your governance. Do not grant L2 send/post.

Done when. You can describe the kill-switch and the fallback (ERP without the agent lane).

08 — Design the controls on the slice

What to do. Attach preventive and detective controls to the first five agents. Duplicate before post. No invented GR. No document-driven bank change.

Open (Pro/Team): `../03_AP_AGENT_OS_PRO/Controls/00_CONTROL_FRAMEWORK.md`
Use the matrix and exception taxonomy when you code exceptions.

Done when. Agent 10 is in the path before Matching can execute and before a human payment run.

09 — Freeze the baseline

What to do. Count *your* invoices on the slice. First-pass yield, cycle time (one clock), exception mix, unit cost ingredients. Do not paste APQC, Deloitte, or Hackett figures into the scorecard.

Open (Pro/Team): `../03_AP_AGENT_OS_PRO/KPI_and_Measurement/00_KPI_FRAMEWORK.md`
Then the dictionary. Activity cannot promote. Risk-control can veto.

Starter: a spreadsheet with those four questions is enough to begin.

Done when. The baseline is dated and scoped. TARGET labels are honest.

10 — Shadow at L0

What to do. Run 01, 02, 03, 10, 16 at **L0** only. Shadow files. Miss logs. Operators do not work from the agent. No live queue.

Open: The five charters' L0 rows and instruction skeletons (labelled starting instructions — not magic prompts).

Test: `00_METHODOLOGY.md` Step 6 ideas — labelled historical pack, buyer-owned.

Done when. You can describe precision, misses, and exception minutes on *your* counts.

11 — Promote only with a file

What to do. If — and only if — the pack in `17_AUTONOMY_PROGRESSION.md` is complete, raise **one** agent × entity × slice by **one** level. Prefer 01 and 10 first. Leave 12 at L1.

Open: `17_AUTONOMY_PROGRESSION.md` evidence pack list.

Config: ceiling stored outside the model.

Done when. Signatures exist. Sampling plan exists. Rollback is tested. Or you honestly stay at L0.

12 — Operate the cadence — then decide the next licence

What to do. Weekly: queue, incidents, overrides. Monthly: hashes vs charter. Do not invent a savings slide.

Open (Pro/Team): `../03_AP_AGENT_OS_PRO/KPI_and_Measurement/03_WEEKLY_AGENT_REPORT.md`
`04_MANAGEMENT_DASHBOARD.md`

Then decide:

If	Then
You are one practitioner and Starter is tight	Continue, or buy Professional when you need agents 04–15 or governance volumes
Professional and three people hold the zip	Buy Team. Do not mailbox-share. Credit within 30 days: licence@evidenceroom.ai
You need the OS drawn on your DoA	Custom Blueprint — evidenceroom.ai/custom-blueprint
Someone asks for AR or expense next	No. AP until this path is earned.

Done when. The weekly forum exists, the kill-switch has been drilled once, and the next purchase (if any) matches the work.

If you are lost

Question	File
What did I buy?	<code>PRODUCT_INDEX.md</code>
I have 45 minutes	<code>QUICK_START.md</code>
What changed in this zip?	<code>VERSION_HISTORY.md</code>
May I share this?	<code>../10_LEGAL_AND_LICENSING/00_LICENCE_TERMS.md</code>
What do you <i>not</i> promise?	<code>../10_LEGAL_AND_LICENSING/01_DISCLAIMERS.md</code>

Proof before permission.

Quick Start — 45 minutes

Product: Evidence Room / AP Agent OS

Use: When you cannot walk all twelve steps today. This does not replace `START_HERE.md`.

You will not configure an ERP in this sitting. You will leave with owners, a slice, a forbidden list, and a baseline question.

Minute 0–5 — What you hold

Read the first two pages of `../03_AP_AGENT_OS_PRO/Agent_Library/00_AGENT_STACK_OVERVIEW.md`.

Say aloud: *This designs the agent layer. It does not replace the stack. Default is L0.*

Minute 5–15 — What stays human

Read the four human classes in `18_HUMAN_VS_AGENT_DECISION.md` (or the table in `00_AGENT_STACK_OVERVIEW.md`).

Write them on one line:

- 1. Payment release
- 2. Vendor bank-change
- 3. Policy exceptions
- 4. Legal disputes

If anyone in the room wants a model to do (1) or (2), stop the programme until that sentence is withdrawn.

Minute 15–25 — Name the slice

Fill this. Invent nothing you do not know — write “unknown” and assign an owner to find it.

Field	Your answer
Legal entity / company code	
Channel (mailbox / EDI / portal / scan)	
Document (PO invoice / non-PO / credit)	
Vendor set (existing only?)	
Amount cap (published, not hoped)	
Owner — Intake	

Field	Your answer
Owner — Matching	
Owner — Duplicate	
Owner — Orchestrator (AP Manager)	
Owner — Payments (human, always)	

If the slice is “all invoices, all entities,” you are not ready. Narrow it.

Minute 25–35 — The five agents at L0

Open identity blocks only:

- AGENT_01_Invoice_Intake.md
- AGENT_02_Invoice_Validation.md
- AGENT_03_Matching.md
- AGENT_10_Duplicate_and_Anomaly.md
- AGENT_16_AP_Manager_Orchestrator.md

For each, write: **does not** (from the header) and **forbidden tools**.

You will not turn them on today. You will not paste the instruction skeleton into a consumer chatbot with a live invoice.

Minute 35–42 — Baseline question

From *your* system, for that slice, last month (or last 100 invoices):

- How many received?
- How many posted or parked for payment with no exception?
- How many possible duplicates did a human already catch?
- What clock do you use for cycle time?

Write the numbers. If you cannot, that is the first work — not a model.

Do not copy \$0.38 / \$0.92, 63%, or 60% touchless into this box. Those are other organisations' research, not your baseline.

Minute 42–45 — Next calendar hold

Book the first observation session (START_HERE step 04).

Book a date to read 17_AUTONOMY_PROGRESSION.md before anyone says “promote.”

If you need the full governance and KPI volumes and you bought Starter, that is Professional.
If three people need the zip, that is Team — not a forwarded Individual licence.

You are not done

Return to `START_HERE.md` at step 04. Permission is still unearned.

Proof before permission.

Product Index — Evidence Room / AP Agent OS

Version: 1.0
Date: 20 September 2026
How to use: Find the file. Then return to `START_HERE.md` . This index is a map, not a reading order.
Commercial, research, brand, and store files may exist in the working repository. **Customer zips** include the OS, read-me, and legal copies — not the sales pack. See `../07_LEMON_SQUEEZY/03_FULFILMENT_AND_ONBOARDING.md` .

00 — Read me (you are here)

File	What it is
<code>START_HERE.md</code>	01–12 path. Open first.
<code>README.md</code>	What the archive is and is not
<code>QUICK_START.md</code>	45-minute first sitting
<code>PRODUCT_INDEX.md</code>	This file
<code>VERSION_HISTORY.md</code>	What changed

03 — AP Agent OS Professional (core)

Agent library

File	Agent / object
<code>Agent_Library/00_AGENT_STACK_OVERVIEW.md</code>	Stack, packet, human classes, Monday start
<code>AGENT_01_Invoice_Intake.md</code>	01 Intake
<code>AGENT_02_Invoice_Validation.md</code>	02 Validation
<code>AGENT_03_Matching.md</code>	03 Matching

File	Agent / object

AGENT_15_Root_Cause.md	15 Root cause
AGENT_16_AP_Manager_Orchestrator.md	16 Orchestrator
17_AUTONOMY_PROGRESSION.md	Only promotion method
18_HUMAN_VS_AGENT_DECISION.md	Decision tree
19_AGENT_CHARTER_STANDARD.md	Acceptance test for a charter

Starter subset: 00, 01, 02, 03, 10, 16, 17, 18, 19.

Process mapping

File	Step
00_METHODOLOGY.md	Ten-step method
01_PROCESS_DISCOVERY_GUIDE.md	Observe
02_TRANSCRIPT_TO_WORKFLOW.md	Transcribe / redact
03_SOP_GENERATOR_FRAMEWORK.md	SOP
04_RACI_STANDARD.md	RACI

Governance

File	Object
00_GOVERNANCE_FRAMEWORK.md	Binding operating standard
01_AUTONOMY_POLICY.md	Ceiling policy
02_RELEASE_AND_CHANGE.md	Model and workflow change
03_INCIDENT_AND_OVERRIDE.md	Incident, override, fallback

Controls

File	Object
00_CONTROL_FRAMEWORK.md	Control objectives
01_CONTROL_MATRIX.md	Matrix
02_RISK_REGISTER.md	Risks
03_EXCEPTION_TAXONOMY.md	Exception codes

KPI and measurement

File	Object
00_KPI_FRAMEWORK.md	Four families
01_KPI_DICTIONARY.md	IDs and formulas
02_SCORECARD_GUIDE.md	Scorecard
03_WEEKLY_AGENT_REPORT.md	Weekly forum
04_MANAGEMENT_DASHBOARD.md	Steering pack rules

06 — Sales and marketing (internal / site source)

Not required in the customer OS zip.

File	Object
00_POSITIONING_AND_COPY.md	Source of commercial truth
01_LANDING_PAGE.md	Conversion page
02_WEBSITE_IA_AND_COPY.md	Full site copy
03_LEAD_MAGNET_FUNNEL.md	LinkedIn → Blueprint
04_EMAIL_SEQUENCE.md	7 emails
05_90_DAY_CONTENT_SYSTEM.md	Calendar
LinkedIn/30_POSTS.md	30 posts
Carousels/10_CAROUSELS.md	10 carousels
Articles/05_LONGFORM.md	5 articles
Charts/10_EXECUTIVE_CHARTS.md	10 chart specs
06_MARKETPLACE_DERIVATIVES.md	Acquisition SKUs
07_FINANCIAL_MODEL.md	Internal economics

07 — Lemon Squeezy (internal)

File	Object
00_STORE_SYSTEM.md	Store operating system
01_PRODUCT_LISTINGS.md	Listing copy
02_CUSTOMER_EMAILS.md	Transactional mail
03_FULFILMENT_AND_ONBOARDING.md	Zip and welcome

09 — Research (internal; cite, do not invent)

File	Object
RESEARCH_LEDGER.md	Only citable figures
COMPETITOR_REVIEW.md	Category map
DOMAIN_AND_NAMING.md	evidenceroom.ai

10 — Legal and licensing (customer zip: selected files)

File	Object
00_LICENCE_TERMS.md	Individual / Professional / Team
01_DISCLAIMERS.md	Banned promises
02_PRIVACY_LANGUAGE.md	Draft notice
03_REFUND_POLICY.md	Fitness refund
04_IP_CLEANLINESS_CHECKLIST.md	Internal
05_AI_USE_DISCLOSURE.md	How AI was used
06_SCALE_ROADMAP.md	AP only; no other verticals now

Drafts are flagged for counsel. Not legal advice.

11 — Brand (internal)

File	Object
BRAND_SYSTEM.md	Locked lines, type, colour, voice

01 — Free diagnostic

File	Object
01_FREE_AP_AI_READINESS/Evidence_Room_AP_AI_Readiness_Diagnostic.md	Diagnostic instrument
01_FREE_AP_AI_READINESS/SCORECARD_INSTRUCTIONS.md	How to score

02 — Starter

File	Object
02_AP_AGENT_STARTER/ Evidence_Room_AP_Agent_Starter_Kit.md	First-slice kit (pairs with agents 01–03, 10, 16)

04 — Team edition

Team operating pack (workshops, executive, training, implementation, change). Licensed under Team, not Individual.

Folder	Object
04_AP_AGENT_OS_TEAM/00_TEAM_EDITION_PLAYBOOK.md	How the Team edition is run
Workshop/	Facilitation, agendas, exercises, interviews
Executive/	Steering, CFO brief, board summary
Training/	AP team and agent-owner training
Implementation/	Tracker, benefits realisation, maturity
Change_Management/	Toolkit and executive comms

05 — Custom Blueprint

File	Object
00_SERVICE_BROCHURE.md	What Blueprint is
01_INTAKE_QUESTIONNAIRE.md	Application
02_FULFILMENT_WORKFLOW.md	How we deliver
03_DELIVERABLE_OUTLINE.md	What the buyer receives
04_90_DAY_PLAN_TEMPLATE.md	First ninety days

SKU → folders

SKU	Include
Diagnostic	01_FREE_AP_AI_READINESS + generated score PDF
Starter	02_AP_AGENT_STARTER + Agent 00/01/02/03/10/16/17/18/19 + Process 00_METHODODOLOGY + 00_READ_ME + legal short set
Professional	Full 03_AP_AGENT_OS_PRO + 00_READ_ME + legal customer set
Team	Professional + 04_AP_AGENT_OS_TEAM + seat register process
Custom Blueprint	05_CUSTOM_BLUEPRINT + SOW deliverables, not a second OS

Reserved folder numbers

08 and 12 remain reserved (implementation notes, platform). Follow START_HERE for the buyer path; use this index to find a file.
