

EVIDENCE ROOM

AP Agent OS Team Edition

Workshop-ready transformation system for AP leadership teams

Tier 3 · US\$499

Operating Evidence · Not legal, tax, or accounting advice

AP Agent OS — Team Edition Overview

Product: Evidence Room — AP Agent OS Team **Price:** US\$499 **Document ID:** ER-TEAM-OVER-001 **Version:** 1.0 **Brand idea:** Operating Evidence **Licence:** Team / workshop (multi-user within one organisation — see licence pack)

1. What Team is for

Team is the edition you open when a Finance Director says:

> “Can we run a credible AP agent workshop tomorrow — with Controllershship, AP, Procurement, and IT in the room?”

It packages facilitation-ready materials, training, executive artefacts, and implementation trackers on top of the Professional operating-system depth (16-agent library, governance, taxonomy, KPIs — included by purchase ladder or cross-reference to Pro artefacts you already hold).

Team is not software, an ERP replacement, or autonomous payment tooling.

2. What’s in the box

Workshop/	Deck (~40 slides), facilitation guide, exercises, stakeholder interview guide, process-owner questionnaire	Transformation lead / facilitator
Training/	AP team training curriculum	Head of AP / trainers
Executive/	CFO steering pack, board/CFO summary template, exec comms	CFO / Controller office
Implementation/	Playbook, trackers, maturity, business case, governance pack, steering templates	PMO / Process Owner
Change_Management/	Change toolkit	Change lead / AP leadership

This overview file: navigation, workshop-in-a-day agenda, role map, and quality bar.

3. Who should be in the room

Executive sponsor (CFO / Controller)	Opening + close (or full day)	Risk appetite; autonomy ceiling
Head of AP / Process Owner	Yes	Design authority
Exception / team leads	Yes	Reality check
Controllershship / Internal Control	Yes	SoD, payment boundary
Procurement (buyer ops)	Recommended	PO quality, disputes
IT / Finance systems	Recommended	Integration, logging

Internal Audit (observer)	Optional	Assurance awareness
Shared Services lead	If GBS model	Multi-entity standards

Ideal size: 8–14 people. Above 18, split into design pods.

4. Workshop-in-a-day agenda (default)

08:30–09:00	Arrival, outcomes, rules of engagement	Deck S1–S4
09:00–09:40	Operating Evidence & responsibility model	S5–S10
09:40–10:30	Current-state pain & diagnostic readout	S11–S14; Exercise 1
10:30–10:45	Break	
10:45–12:00	Exception taxonomy install	S15–S18; Exercise 2
12:00–12:45	Lunch	
12:45–14:00	Agent family prioritisation & charters	S19–S26; Exercise 3
14:00–14:15	Break	
14:15–15:15	Controls, payment boundary, governance	S27–S32; Exercise 4
15:15–16:15	90-day plan, KPIs, RACI	S33–S37; Exercise 5
16:15–16:45	Executive readout rehearsal	S38–S40
16:45–17:00	Decisions & close	Decision log

Facilitator may compress to half-day executive version using Facilitation Guide §6.

5. Outcomes you should refuse to fake

By end of workshop, the organisation should have **draft** (not theatre):

- 1 Autonomy ceiling and payment boundary statement
- 2 Prioritised agent backlog (≤ 5) with owners
- 3 Adopted exception code list for pilot slice
- 4 Baseline KPI list + data owners
- 5 90-day plan with named workstreams
- 6 Steering cadence and kill-switch owner

If Controllership will not sign the payment boundary, **stop expansion talk** — document as blocker.

6. How Team relates to other tiers

Free Diagnostic	Pre-work scores feed Workshop Exercise 1
Starter	Individual design; Team scales facilitation

Professional	Depth library Team facilitators reference live
Custom Blueprint	Optional after Team when stack-specific design is needed

7. Quality bar — “usable tomorrow”

Before facilitating:

- ☐ Read Facilitation Guide end-to-end
- ☐ Pre-interview 3–5 stakeholders (`04\_STAKEHOLDER\_INTERVIEW\_GUIDE.md`)
- ☐ Process Owner completes questionnaire
- ☐ Pull sample exception ageing (even rough)
- ☐ Confirm room tech: whiteboard + shared decision log
- ☐ Print Exercise sheets
- ☐ Agree with sponsor: no savings/fraud/compliance guarantees on slides

8. Voice & claims discipline (facilitator)

Allowed: design, charter, baseline, shadow, escalate, measure, demote. **Banned in room:** guaranteed ROI, autonomous AP, “AI will find all fraud,” “compliance solved,” magical productivity %.

When executives press for a number, open **Benefits Realisation Tracker** and label assumptions **NON-EVIDENCE**.

9. Licence (summary)

Team licence covers multi-user use **within one purchasing organisation** for internal workshops and transformation. It does not permit resale, public redistribution, or use as a consulting firm’s deliverable template across multiple clients without a commercial licence add-on.
