14	AP Reporting Agent	Level 3	AP Manager
15	Root Cause Agent	Level 0	Finance Transformation / AP Process Owner
16	AP Manager / Orchestrator Agent	Level 2	AP Manager / Head of Shared Services

Governance Framework

Every agent operates under the AP Agent Governance Framework covering human accountability, segregation of duties, least privilege, audit logging, and incident response.

KPI Framework

21 KPIs across four categories: Activity, Operational, Financial, and Risk/Control. Each with definition, formula, data source, and target direction.

Implementation Path

- Phase 0: Baseline and readiness (1-2 weeks)
- Phase 1-2: Process discovery and agent specification (3-5 weeks)
- Phase 3-5: Data access, prototype, historical testing (5-9 weeks)
- Phase 6-7: Shadow mode and controlled pilot (6-10 weeks)
- Phase 8-10: Performance review, autonomy progression, scale
- Accelerated: 4-6 weeks for one well-bounded agent (depends on systems, data quality, governance)
