Northline Industrial Group is fictional . Do not copy its figures into this sheet as if they were yours.	

Process (max 12)

ID	QUESTION (SHORT)	0	1	2	ARTEFACT YOU COULD SHOW THIS WEEK	NOTES
P01	Live path recognised by exception staff					
P02	Invoice classes named with mix					
P03	Shared exception codes					
P04	Top waits known (median or p90)					
P05	Inbound channels complete and reconcilable					
P06	Pay and close on the same map					
P total					/12	

Data (max 12)

ID	QUESTION (SHORT)	0	1	2	ARTEFACT	NOTES
D01	Invoice natural key defined					
D02	Vendor cross-walk if multi-ledger					
D03	Required fields before match					
D04	Lineage from posted invoice					
D05	Labelled sample / golden set					
D06	Untrusted input handled					
D total					/12	

Controls (max 12)

ID	QUESTION (SHORT)	0	1	2	ARTEFACT	NOTES
C01	Payment release is human and written					

ID	QUESTION (SHORT)	0	1	2	ARTEFACT	NOTES
C02	Vendor bank / tax-ID dual control					
C03	DOA version matches workflow					
C04	SOD posting vs paying (incl. system users)					
C05	Overrides coded and retained					
C06	Kill switch named

Economics (max 12)

ID	QUESTION (SHORT)	0	1	2	YOUR FIGURE (IF ANY)	SOURCE
E01	Slice volume / month					
E02	Exception rate, defined					
E03	Time-to-post median / p90					
E04	Loaded cost definition					
E05	Hours ≠ cash until cost base moves					
E06	Industry figures labelled context					
E total					/12	

Do not write \$10–\$15 or \$2–\$3 as *your* cost. Those dollars are vendor-recycled and unverified.

Hard gates

GATE	TRIP IF	TRIPPED? (Y/N)	EFFECT
Payment	C01 = 0		Cap level at 1. No payment-adjacent execute.
Map	P01 = 0 and P05 = 0		Diagnostic says wait . Map only.
Unsafe case	E05 = 0 and E06 = 0		Business-case starter unsafe . Rewrite the deck.
Domain collapse	Any domain total ≤ 2		Override overall level down (see Diagnostic §7.2).

Read with Diagnostic §8.1. Do not colour this into a “readiness dashboard” for a steering pack without the hard gates.			

Next step (circle one)

- Wait — map one live class only
- Starter — fence a trial already in the building
- Professional — I will own the method
- Team — several people must implement
- Custom application — toolkit will not fit
- Rewrite sponsor deck (unsafe case) before any of the above

Paste-ready paragraph

We completed the Evidence Room AP Agent Readiness Diagnostic for __. We are at **Level** _____. Weakest domains: __ and __. We will not use industry cost-per-invoice figures as our baseline. Our slice is __. We will __ before any production agent. We are not claiming savings, fraud detection, compliance, or ROI. Payment release remains human.
