

EVIDENCE ROOM

INTERNAL

Evidence Room — brand system

Version: 1.0 · September 2026

Domain: evidenceroom.ai (available on Vercel registrar check this build — re-check before purchase)

Tokens: design-system.css

This file: idea, lines, type, colour, mark, iconography, charts/tables/callouts/covers, product-family architecture.

The brand is a **room**, not a robot. A claim about an agent has to survive process, control, and measurement. If it cannot, it does not ship as a story.

1. Brand idea

Finance does not need another assistant. It needs a place where “the agent will handle it” is forced to become a job, a fence, an owner, an evidence pack, and a pause.

Evidence Room is that place. The product is the standard. The aesthetic is institutional research, not a launch party.

Supporting sense: Governed agents. Measurable outcomes.

Audience feeling we want: “I can defend this on Tuesday, to Audit and to the floor.”

Audience feeling we refuse: “This will 10x AP.”

2. Line evaluation

LINE	DECISION	REASON
Responsibility is earned.	Master. Locked.	A standard. Matches Levels 0–4. A controller can repeat it. It forbids demo promotion.
Governed agents. Measurable outcomes.	Supporting only.	Accurate. Less of a moral rule. Use under the master line, in footers, on method.

Evidence over hype

LINE	DECISION	REASON
	Rejected as master	True; leads with contempt. The buyer already knows the market is noisy.
From workflow to workforce	Rejected	Implies replacement. Not the offer.
Evidence over theatre	Internal only	Useful in operating spec. Too insider for the H1.
The operating system for AP agents	Product descriptor	Use in titles and decks. Not a brand line.
Full autonomy is never the default	Operating rule	May appear in product. Not the wordmark.

Do not rotate slogans by campaign. Do not add a third public line. Do not abbreviate the master line to “RIE.”

How to use the master line

- After the H1 or as the H1 on Method
- Footer strip on every marketing page
- Last slide / last page of a brief
- Never as a sticker on a savings chart (we have no savings charts)

3. Voice

Intelligent. Concise. Credible. Executive. Specific. Non-hype.

PREFER	AVOID
Invoice, exception, fence, steward, evidence pack, parked, GR/IR	Unlock, supercharge, 10x, AI-powered, seamless, magic
Named owner	The team (as an owner)
Observe / recommend / prepare	Autonomous (unless Level 4, defined)
Northline is fictional	Case study, customer, logo wall
We do not promise...	But you <i>could</i> save...
Read 08_WEBSITE/COPY_HOME.md and the Agent Library if a sentence feels like a landing page from 2021.	

4. Typography

ROLE	SPEC	USE
Serif	Source Serif 4 , 500, tracking -0.015em . Fallback: Iowan Old Style, Palatino	H1–H4, wordmark, cover titles
Sans	IBM Plex Sans . Fallback: Helvetica Neue, Arial	Body, tables, UI
Mono	IBM Plex Mono . Fallback: SF Mono, Menlo, Consolas	Kickers, labels, IDs (A03), codes (GR-MISS), prices

Scale (print / PDF)

STYLE	SIZE	LINE
Cover title	28–34 pt serif	1.15
H1	22 pt serif	1.2
H2	16 pt serif	1.25
Body	11 pt sans (print) / 15.5 px sans (web)	1.4 / 1.55
Kicker	11 px/pt mono, 0.16em, uppercase, forest	—
Label	10.5 px/pt mono, 0.12em, uppercase, slate	—
Wordmark	13 px/pt, 0.22em, uppercase, weight 600	—

Do not use Inter, Roboto, Comic faces, or display italics for “emotion.”

5. Colour

From `design-system.css`. Do not introduce purple, neon, or lemon-yellow on *our* surfaces. Lemon Squeezy checkout may look like Lemon Squeezy; that is acceptable.

TOKEN	HEX	ROLE
--ink	#14171c	Text, rules of force
--ink-soft	#2a3038	Secondary text
--slate	#5c6370	Labels, meta
--rule	#b8a888	Gold rule, table lines of record
--rule-soft	#d4cbb8	Hairlines

TOKEN	HEX	ROLE
--paper	#f3efe6	Page ground
--cream	#faf7f0	Panels
--white	#fffcf7	Cards
--forest	#1e5c45	Links, kickers, mark
--forest-deep	#143d2e	Hover, cover mark
--rust	#8c3a2f	"What this is not," hard gates, Sev-1
--amber	#8a6a2f	Caution, unsigned F, Level 0

Meaning (do not invert)

- Forest = proceed with governance
- Rust = refusal / non-promise / stop
- Amber = observe, unsigned, caution
- Gold rule = institutional line, not decoration

Contrast: ink on paper meets body-text needs. Do not put slate on rule-soft.

6. Logo and wordmark

Wordmark: EVIDENCE ROOM in the wordmark style (serif or tracked small-caps per context). No tagline inside the mark.

Cover mark: a forest square (the "room") — 1:1, #1e5c45, optional 1 px rule-gold inset. Empty. Not a pictogram of a filing cabinet, a tick, or a robot.

Lockup (default)

[■] EVIDENCE ROOM
Responsibility is earned.

Square left, wordmark, supporting or master line underneath in sans/ink-soft.

Do not

- Add a lens, an eye, a brain, a sparkle
- Animate the square into a chat bubble
- Place the mark on a photograph of people pointing at glass
- Use a lemon, a check-orange, or a gradient orb

Favicon: forest square or ink monogram ER in mono, no colour animation.

Clear space: one square-width on all sides. Minimum digital size: 16×16 favicon; 28×28 pt on covers.

7. Iconography

Almost none. If an icon is required (site nav, PDF kicker):

- 1 px stroke, ink or forest, 24 px grid
- Geometric: fence (box in a box), register (ruled lines), pause (two bars)
- No 3D, no filled illustration sets, no Remix-style colourful packs

Agent IDs (A01) *are* the icons. Do not commission sixteen mascots.

8. Charts, tables, callouts, covers

Charts

- Paper ground, ink series, forest for “ours / operating,” amber for baseline, rust for a control break
- Caption **first line** must say Illustrative OR Independent – see Ledger OR Customer baseline
- No 3D, no exploded pie, no “78%” as a hero number without LEDGER-001 and the words *industry context, not our forecast*
- No dual-axis tricks that imply ROI

Executive chart files in sales (06_SALES_AND_MARKETING/charts/) follow this. If a chart cannot survive Q3, delete it.

Tables

- Left-aligned text, lining figures if available
- Header: mono label or sans 13 px, rule under
- Hairline #d4cbb8; heavier #b8a888 for totals
- Do not zebra in purple-grey. Alternate cream / paper if needed

Callouts

KIND	TREATMENT
Non-promise	Rust 3 pt left rule, cream fill, list unsoftened
Operating rule	Forest left rule, no fill or paper
Illustrative (Northline)	Amber left rule + first words Fictional example.
Stop / kill switch	Rust, short, named human

Covers (PDF / zip / OG)

- Ground #f3efe6
- Forest mark + serif title + mono product label (DIAGNOSTIC / STARTER / PROFESSIONAL / TEAM / BLUEPRINT)
- Master line at the foot
- 1200×1200 and 1600×900 per store blueprint
- No photographs, no people, no robots, no purple

Thumbnails: thumb-diagnostic-sq.png etc. as in 07_LEMON_SQUEEZY/STORE_BLUEPRINT.md \$5.

9. Product-family architecture

One family. Five rungs. Same room.

Diagnostic (free, evaluation)

- Starter \$79 (individual, first fence)
 - Professional \$199 (one practitioner, full OS)
 - Team \$499 (eight seats, human system)
 - Custom \$1,500–\$3,000 (named entity, application)

RUNG	MONO LABEL	VISUAL CUE	PROMISE (ONLY THIS)
Diagnostic	DIAGNOSTIC	Level ladder 0–4 on paper	A level, a gap map, a next step
Starter	STARTER	Fence diagram (box in a box)	Design and fence the first agent
Professional	PROFESSIONAL	Eight-pack grid, mono labels	The operating system
Team	TEAM	Eight-seat mark + WORKSHOP	The OS plus the human system
Custom	BLUEPRINT	Blank map	A written design for one environment

Shared modules (site and PDF): five-second block · what this is not · responsibility model · workforce diagram · tier table · Northline vignette labelled fictional · FAQ · legal/MoR strip.

Hierarchy of surfaces

1. evidenceroom.ai — paper, our type, our mark
2. Lemon Squeezy checkout — their UI + our thumbnails + our microcopy
3. Zip interiors — markdown / PDF in this system
4. LinkedIn — same type discipline; no carousel that implies savings

Do not create a second mascot for Team or a “pro” chrome gradient. Seriousness scales by *completeness of documents*, not by gloss.

10. Photography and motion

None required at launch. If later:

- Empty rooms, paper, industrial still life without hero workers
 - No stock “diverse team at agile board”
 - Motion: fade and rule-draw only; no bounce, no confetti
-

11. Legal line (every public surface)

Independently authored operating materials. Not legal, tax, accounting, audit, or investment advice. Does not replace your ERP, AP, or control environment. Does not promise savings, fraud detection, compliance, accounting accuracy, autonomous payments, or ROI. Northline Industrial Group is a fictional example. Checkout processed by Link, LLC f/k/a Lemon Squeezy LLC as merchant of record where that is the fact.

12. Checks before a surface ships

- [] Master line present or one click from the footer
- [] Non-promise list or a pointer that does not soften it
- [] Northline labelled fictional if used
- [] No purple, no robot, no savings hero

- [] Type triad only
- [] Product label matches the SKU
- [] Ledger cited if a number appears

If a surface fails a check, it is not off-brand in a cute way. It is unpublished.
