

EVIDENCE ROOM

# Licence, privacy, and disclaimer drafts

For counsel. Not an enforceable instrument.

---

*Proof before permission.*

Working drafts only. Counsel must confirm before public launch or checkout.

**Hard hold.** ERP remains the system of record for accounting. Named humans remain the system of record for cash. Vendor-bank change and close attestation stay human. Duplicate & Anomaly flags are hypotheses, not fraud verdicts. This book is a method, not hosted software.

# How to use this book

Buy Friday. Begin Monday. Do not charter from memory.

1. Score the free diagnostic (36 questions). Honour vetoes.
2. Map one path (usually PO-goods). Code exceptions from the closed list.
3. Charter Wave 1 at L0 or L1: Intake, Validation, Matching, Triage, Duplicate & Anomaly, Orchestrator.
4. Write the payment sentence on the wall. Agent 12 annotates; humans release.
5. Shadow before any write path. Promote only with an evidence pack.

Every page should answer at least one of: What should I do? How? Who owns it? What can go wrong? How do I control it? How do I measure it? What evidence proves it works?

Northline Industrials is a *fictional* manufacturer used so tables can be concrete (~15,000 invoices/month, Dynamics 365, Cleveland SSC). Figures are illustrative, not a client result.

Customer-facing statistics are limited to the research ledger. Do not paste vendor cost-per-invoice figures into a business case as targets.

# Licence Terms — Draft for Counsel

**Product:** EVIDENCE ROOM — AP AGENT OS  
**Document status:** Working commercial draft. **Not legal advice. Not an enforceable instrument until counsel revises and a lawyer-client relationship issues a final version.**  
**Last updated:** 20 September 2026  
**Licensor (placeholder):** [Legal entity name, jurisdiction — to be confirmed] (“Licensor,” “we”)  
**Lockup:** EVIDENCE ROOM — AP AGENT OS

These terms are intended to sit next to TERMS.md and to be accepted at Lemon Squeezy checkout. Lemon Squeezy’s merchant-of-record terms may also apply to the purchase contract. **Counsel must reconcile MoR vs licensor roles.**

## Plain-language summary (not a substitute for the draft clauses)

You are buying a **licence to use files**, not ownership of the copyright, and not software that connects to an ERP.

| Licence                             | Who                                                                          | May                                                                    | May not                                                                                         |
|-------------------------------------|------------------------------------------------------------------------------|------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Individual (Starter / Professional) | One named person                                                             | Use internally in their work, including ordinary internal presentation | Resell, redistribute, sublicense, publish as their product, share the archive as a team library |
| Team                                | Named organisation + working group (proposed cap: 10 named people — confirm) | Share internally among those named people                              | Resell, redistribute outside the org, sublicense, publish as the org’s product for sale         |
| Custom Blueprint                    | As scoped in an acceptance note                                              | Use deliverables as scoped                                             | Treat Evidence Room files as their own product                                                  |

**All licences forbid** resale, redistribution, sublicensing, and publishing the materials (or a thin rewrite) as the licensee’s own product.

## 1. Grant (draft)

Subject to payment (except the free Diagnostic), these terms, and the site Terms, Licensor grants the applicable non-exclusive, non-transferable, non-sublicensable, revocable licence described below to use the licensed materials (“materials”) for the licensee’s internal professional purposes in connection with designing and governing an Accounts Payable agent layer.

No other licence is granted. All rights not expressly granted are reserved.

## 2. Individual licence (Starter and Professional)

**Licensee:** the natural person named on the order (or, if a company pays, the single practitioner identified at purchase).

### Permitted

- Download and store copies for that person’s working use.
- Apply the method inside the organisation that employs or engages them.
- Show excerpts in internal meetings of that organisation.

- Print reasonably needed working copies.

**Not permitted**

- Sharing the archive or keys so that the materials become a team library (buy Team).
- Use by a consultancy as a reusable client deliverable or methodology product.
- Any item in §5.

Professional includes a broader file set than Starter. The licence **type** is the same (Individual); the **file set** differs. Buying Starter does not grant Professional files.

**Counsel:** define “internal” for contractors sitting inside a client SSC.

---

### 3. Team licence

**Licensee:** the legal entity named at checkout.

**Permitted**

- Use by up to **[10 — confirm]** named practitioners employed or engaged by that entity, solely for that entity’s internal AP / finance / audit / transformation work.
- Shared registers and charters among those named people.
- Ordinary internal presentation to others inside the same entity who are not editors (e.g. a Controller attending a review).

**Not permitted**

- Affiliates, subsidiaries, or clients as additional licensees unless named in a written expansion.
- Use as a product the entity sells.
- Any item in §5.

**Counsel:** confirm seat cap, affiliate treatment, and whether a global SSC serving multiple legal entities needs an extra grant.

---

### 4. Custom Blueprint

If Licensor accepts an application and the parties sign or accept a scope note:

- Facilitated deliverables are licensed as stated in that note.
  - Unless the note says otherwise, the core toolkit (if provided) is licensed as Team or Individual as specified.
  - Pre-existing Evidence Room IP stays with Licensor.
  - Newly written charters naming the customer’s roles may be used internally by the customer as the scope says.
  - Licensor may retain anonymised method improvements. **Counsel: confidentiality and residual knowledge.**
- 

### 5. Prohibited uses (all licences)

The licensee shall not, and shall not permit others to:

1. **Resell** the materials or access to them.

2. **Redistribute** the materials (public repo, marketplace, newsletter bonus, “free zip,” client portal as a downloadable product).
3. **Sublicense** or “lend” the licence.
4. **Publish the materials as their own product**, including a thin rewrite, re-title, or translation offered for sale or as a lead magnet that substantially reproduces the OS.
5. Remove copyright, licence, or disclaimer notices.
6. Use Licensor’s name, lockup, or domain to imply partnership, certification, or endorsement.
7. Represent the materials as software that processes live payments, detects fraud, or certifies compliance.
8. Use the materials to provide a competing licensed toolkit.
9. Circumvent licence keys or download controls.
10. Upload Licensor’s files to a public AI-training corpus or public prompt marketplace.

**Counsel:** tighten “thin rewrite” and AI-training clause for enforceability in the chosen jurisdiction.

---

## 6. What the licence is not

The licence is not:

- a transfer of copyright or trademark
  - an ERP, SaaS, or payment-service agreement
  - a professional-services retainer (except Blueprint as scoped)
  - permission to use third-party marks (SAP, Oracle, etc.)
  - a warranty of outcomes
- 

## 7. Ownership

Licensor and its licensors own the materials, the lockup, and the method as expressed in the files.

Feedback may be used by Licensor without obligation. **Counsel: assignment vs licence of feedback.**

Northline Industrials is a fictional illustration and is not a customer asset.

---

## 8. Term and termination (draft)

The licence begins on payment (or Diagnostic delivery) and continues until ended.

Licensor may end the licence if the licensee materially breaches §5 or non-payment is later reversed (chargeback) and does not cure within **[30 days — confirm]** after notice, except that key revocation on chargeback may be immediate.

On end: the licensee must stop new redistribution (already forbidden) and, **[counsel: destroy vs retain one archive for legal records]**.

Clauses that should survive: ownership, prohibited uses, disclaimer, limitation, governing law. **Counsel to list.**

---

## 9. Updates

Professional and Team: Licensor **may** provide specified file updates for **12 months** from purchase. Not a support SLA. Not a promise of new agents or software.

---

## 10. Diagnostic

The free Diagnostic worksheet is licensed for the taker's internal use only, no resale, no republishing of the scoring key as a product.

---

## 11. Refunds

See Refund Policy. A refund, when issued, ends the licence. Keys may be disabled.

---

## 12. Open source / third-party

The materials are not inbound GPL. If a future file includes third-party notices, those notices control for that file. **Counsel: audit the zip before launch.**

---

## 13. Export and sanctions (placeholder)

Licensee represents they are not prohibited from receiving the materials under applicable export or sanctions rules. **Counsel to draft; do not publish a fake controls programme.**

---

## 14. Governing law and disputes (placeholder)

[Governing law and venue — to be confirmed].

[Consumer-law non-excludables — to be confirmed].

---

## 15. Contact

Licence questions: hello@evidenceroom.ai

Include Lemon Squeezy order ID.

---

## Counsel checklist (do not publish)

- ☐ Entity name and warranty of authority
- ☐ MoR vs licensor: who contracts with the buyer
- ☐ Seat cap and contractor language
- ☐ Enforceable definition of "publish as own product"
- ☐ AI training / scraping clause
- ☐ Termination and destruction
- ☐ Consumer downloadable-goods rules (EU/UK cooling-off vs express consent to lose withdrawal)
- ☐ Trademark coexistence vs Evidence Room LLC
- ☐ Alignment with LS checkout clickwrap

# Terms of Site Use and Sale — Draft for Counsel

**Status:** Working draft. **Not legal advice.** Do not publish as final until counsel revises, fills placeholders, and reconciles Lemon Squeezy merchant-of-record terms.

**Last updated:** 20 September 2026

**Operator placeholder:** [Legal entity name] (“we”)

**Site:** evidenceroom.ai

By using the site or buying a licence you agree to these Terms, the Licence Terms, the Disclaimer, the Refund Policy, the Privacy notice, and the AI-use disclosure. If you do not agree, do not use the site or the files.

---

## 1. Who we are and what we sell

We publish and license **Evidence Room — AP Agent OS**, a digital method and toolkit for designing and governing an Accounts Payable agent layer.

We do **not** sell ERP software, hosted agents, payment processing, banking, audit, legal, tax, or compliance certification.

The distinctive lockup is EVIDENCE ROOM — AP AGENT OS. We are **not** Evidence Room LLC (forensic animation).

---

## 2. Eligibility and authority

You must be of legal age in your jurisdiction to form this contract. If you buy Team or apply for a Blueprint, you represent you have authority to bind the named organisation.

The site is for professional, B2B-style use. **Counsel: consumer vs trader characterisation per region.**

---

## 3. Merchant of record and checkout

Paid orders are processed by **Lemon Squeezy**, which acts as **merchant of record** on that checkout (confirm at launch). Their terms and privacy notice also apply to the payment.

Taxes shown at checkout, if any, are collected under that arrangement. **This is a description, not tax advice.** You remain responsible for your organisation’s own accounting.

We receive the information needed to fulfil the licence.

---

## 4. Accounts and site use

You may use the public site without an account. Checkout may occur entirely on Lemon Squeezy.

You agree not to:

- interfere with the site or checkout
- scrape in a way that degrades service
- upload malware or unlawful content
- attempt to break licence keys or download limits
- impersonate us or Evidence Room LLC

- use the site to collect others' personal data

We may suspend access for abuse.

---

## 5. Content on the site

Site copy, diagrams, and resources are ours or used with permission. You may link to public pages. You may not copy the toolkit from the site as a substitute for a licence.

Northline Industrials is fictional.

Third-party names (ERP vendors, etc.) are used descriptively. No endorsement is implied.

---

## 6. Orders, delivery, licence

Prices are in USD unless shown otherwise. A listed price is an invitation to order, not a binding offer until accepted (typically by payment success). **Counsel: offer/acceptance under chosen law.**

Delivery is digital: signed download and, for paid SKUs, a licence key. You are responsible for archiving your licensed copy. Links may expire.

You receive a **licence**, not ownership. See Licence Terms. Prohibited: resale, redistribution, sublicensing, publishing as your own product.

---

## 7. Custom Blueprint

Application does not create an obligation to accept. If we accept, the scope note plus these Terms plus the Licence Terms apply. Facilitation is not an audit and not implementation of software.

---

## 8. Refunds

See Refund Policy. Mandatory consumer rights, if any apply, are not excluded.

---

## 9. No outcome warranties

We do not warrant that the materials will produce savings, ROI, fraud detection, regulatory compliance, accounting accuracy, or safe autonomous payments. The Disclaimer is incorporated.

The materials are provided “**as is**” and “**as available**” to the maximum extent law allows. **Counsel: consumer implied terms.**

---

## 10. Your responsibility

You are responsible for:

- how you apply the method
  - which models and vendors you use
  - which humans you name
  - your control environment and local law
  - not sending us production personal or payment data
-

## 11. Liability (placeholder — do not publish without counsel)

**Proposed commercial intent for counsel to draft:** liability capped at fees paid to us (or to the MoR for our products) in the **12 months** before the claim, with carve-outs required by law (e.g. death/personal injury by negligence, fraud, non-excludable statutory rights). No consequential damages to the extent excludable.

**Do not go live with this paragraph as-is.**

---

## 12. Indemnity (placeholder)

**Proposed intent:** licensee indemnifies us for claims arising from their implementation, their unlicensed redistribution, or their upload of third-party data to us. **Counsel to draft or delete.**

---

## 13. Changes

We may change the site and, prospectively, these Terms. The version dated on the page at the time of purchase applies to that purchase unless law requires otherwise. **Counsel: notice.**

---

## 14. Communications

Transactional mail (receipts, keys) does not require marketing consent. Marketing sequences require opt-in as Privacy describes.

---

## 15. Governing law (placeholder)

**[Jurisdiction and venue — to be confirmed].**

Mandatory local rules may apply.

---

## 16. Miscellaneous (placeholders)

Entire agreement (plus LS terms for payment), severability, no waiver, no assignment by you without consent, we may assign to a successor. **Counsel.**

---

## 17. Contact

hello@evidenceroom.ai

[Address to be added]

---

## Counsel checklist

- ☐ Reconcile with LS seller-of-record language
- ☐ Consumer cancellation / digital content rules
- ☐ Liability cap and prohibited exclusions
- ☐ Governing law
- ☐ Accessibility and language
- ☐ Clickwrap evidence

# Privacy Notice — Draft for Counsel

**Lockup:** EVIDENCE ROOM — AP AGENT OS

**Status:** Working draft. **Not legal advice. Not a complete privacy programme.** Do not publish as final until counsel completes entity, legal bases, cookies, transfers, and MoR wording.

**Last updated:** 20 September 2026

**Operator placeholder:** [Legal entity name] trading as Evidence Room — AP Agent OS (“we”)

**Contact:** hello@evidenceroom.ai

**Site:** evidenceroom.ai

**Paid checkout:** Lemon Squeezy as merchant of record (confirm current role and DPA).

This draft describes intended practice: we sell a downloadable toolkit and do not need production AP data to deliver it.

---

## 1. Scope

This notice covers evidenceroom.ai, the Diagnostic, email we send, support mail, and personal data we receive from Lemon Squeezy about an order.

It does not cover:

- Your ERP or AP platforms
  - Lemon Squeezy’s own privacy notice (they provide one for checkout)
  - Independent affiliates’ sites
  - Evidence Room LLC (forensic animation) — a different organisation
- 

## 2. Data we intend to collect

### 2.1 Site operations

Internet Protocol address, user-agent, approximate time, pages requested, referrer. Purpose: security, debugging, abuse prevention. **[Cookies/analytics: none at launch unless counsel and a tool are added. If added, list them and legal basis.]**

### 2.2 Diagnostic and marketing email

Name, work email, role, optional organisation name, volume/ERP bands, free-text you type, opt-in flag. Purpose: deliver the worksheet, answer you, send the sequence **if you opted in**.

### 2.3 Purchase (via Lemon Squeezy)

Name, email, billing address as required for tax, organisation if provided, product, amount, tax line, licence key, order ID, payment metadata **as LS provides to us**. We do not intend to receive or store full card numbers.

### 2.4 Support

Whatever you send. **Please do not send invoice images, vendor bank details, employee records, or other production finance files.** If you send them, we will ask you to stop and will delete when policy and law allow.

## 2.5 We do not need

Your vendor master, payment files, employee HR files, or live invoice corpus. The OS is applied **in your environment**.

## 3. Purposes (draft)

| Purpose          | Examples                                                                                                                   |
|------------------|----------------------------------------------------------------------------------------------------------------------------|
| Fulfilment       | Keys, signed downloads, START HERE mail                                                                                    |
| Communication    | Diagnostic result, support, sequence if opted in                                                                           |
| Accounts and tax | Records via / with the merchant of record                                                                                  |
| Security         | Logs, fraud-on-checkout (LS), licence abuse                                                                                |
| Improvement      | Aggregated, de-identified diagnostic-band counts — <b>no public “industry benchmark” from your answers without counsel</b> |

We will not sell personal data as that phrase is used in marketing. **Counsel: CCPA “sale/share” if US ads or analytics are added.**

## 4. Legal bases (placeholder — counsel must complete)

If GDPR/UK GDPR applies, typical bases to **evaluate** (not asserted here): contract (fulfilment), legitimate interests (security, limited B2B communications where lawful), consent (email sequence, non-essential cookies), legal obligation (tax records).

**Do not publish a bases table until counsel writes it.**

## 5. Processors and merchant of record

| Party                          | Role (intended)                                                                                                                         |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Lemon Squeezy                  | Checkout, MoR, receipts, licence keys, payouts; their processors (historically Stripe-related infrastructure — <b>confirm current</b> ) |
| [Email provider — to be named] | Transactional and opted-in mail                                                                                                         |
| [Hosting — to be named]        | Site                                                                                                                                    |
| Counsel / accountants          | As needed                                                                                                                               |

**Professional confirmation:** execute DPAs / SCCs / MoR data terms as counsel directs. Do not invent a transfer mechanism in marketing copy.

## 6. International transfers (placeholder)

Data may be processed in the United States and in other countries where processors sit. **Counsel: mechanism.**

## 7. Retention (proposed — counsel to approve)

| Record                            | Proposed                                                                          |
|-----------------------------------|-----------------------------------------------------------------------------------|
| Orders, keys, invoices we receive | Duration required for accounts, tax, and licence enforcement, then delete or lock |
| Diagnostic answers                | 24 months, or sooner on request if law allows                                     |
| Email sequence data               | Until unsubscribe + suppression list as required                                  |
| Support mail                      | 24 months after close, unless a dispute                                           |
| Server logs                       | 90 days unless security investigation                                             |

## 8. Rights requests

Email [hello@evidenceroom.ai](mailto:hello@evidenceroom.ai). We will need enough to find you (email used at checkout). We may refuse or limit as law allows (e.g. we keep an order record).

If you are in a jurisdiction with specified rights (access, deletion, correction, portability, restriction, objection, withdrawal of consent, non-discrimination), **counsel will map the response process**.

## 9. Children

The site is for adult professional purchasers. We do not knowingly collect data from children. If you believe we have, write to us.

## 10. Automated decisions

The Diagnostic produces a **band** from your answers. It is a reading aid, not a legal, credit, or employment decision. We do not use it to set a price of credit or to report you to anyone.

## 11. Sharing

We share personal data with processors above, with authorities if required by law, and with a buyer of our business **if any, as counsel directs**. We do not share Diagnostic free-text publicly.

## 12. Security (honest)

We use ordinary commercial hosting, HTTPS, and LS's checkout. We cannot promise absolute security. We will not ask you to upload production AP data to reduce that risk.

## 13. Changes

We will change the "last updated" date. Material changes: **[counsel: notice method]**.

## 14. Contact

[hello@evidenceroom.ai](mailto:hello@evidenceroom.ai)

[Physical address — required in many regimes — to be added]

## Counsel checklist (internal)

- ☐ Entity and ROPA
- ☐ Cookies / analytics decision
- ☐ LS DPA / MoR data addendum
- ☐ Transfer tool
- ☐ CAN-SPAM / CASL / PECR / GDPR e-privacy for the seven emails
- ☐ Retention vs tax law
- ☐ US state privacy if ads target US consumers
- ☐ Breach procedure

# Disclaimer — Draft for Counsel

**Status:** Working draft. **Not legal advice.** Intended for /disclaimer, checkout footers, and the zip. Counsel must confirm jurisdiction-specific wording.

**Last updated:** 20 September 2026

**Lockup:** EVIDENCE ROOM — AP AGENT OS

If this Disclaimer conflicts with a marketing sentence, **this Disclaimer controls** and the marketing sentence should be removed.

---

## 1. Nature of the product

Evidence Room — AP Agent OS is a **digital method and toolkit**. It contains written architectures, charters, frameworks, and examples to help an organisation **design, govern, and discuss** an Accounts Payable agent layer.

It is **not**:

- software that connects to, posts to, or operates your ERP
  - a payment service, money-transmission service, or bank
  - an audit, assurance, or attestation engagement
  - legal, tax, accounting, or regulatory advice
  - a certification that you meet any law, standard, or control framework
  - a fraud-detection, AML, or sanctions-screening product
  - a guarantee of any financial or operational result
- 

## 2. Outcomes we do not promise

Without limitation, we do **not** promise or guarantee:

- savings, cost reduction, or **ROI**
- **fraud detection**, fraud prevention, or the absence of duplicate or abusive payments
- **regulatory compliance** (including but not limited to SOX, VAT/GST rules, employment, or data-protection law)
- **accounting accuracy** or correct postings
- **autonomous payment safety**
- cycle-time reduction
- “touchless AP” as an operating state
- that any model you later use will be correct

Any number in the materials labelled illustrative, fictional, or Northline Industrials is **not** a benchmark and **not** a target.

---

## 3. Payment authority

The method states that **payment authorisation and release remain human**. That is a design rule in a document. It does not itself stop a person or a vendor from wiring a model to a payment file. **You** must implement holds in your systems and policies.

We are not liable for payments you or your agents release.

---

## 4. Implementation is yours

You choose vendors, models, prompts, permissions, owners, and whether to commission any agent. You are responsible for testing, sampling, access control, and local policy.

The toolkit cannot see your invoices unless **you** paste them somewhere. Do not paste production data to us.

---

## 5. No professional relationship

Using the site or the files does not create an attorney-client, auditor-client, fiduciary, or similar relationship. Blueprint facilitation, if any, is scoped method design, not an audit opinion.

---

## 6. Third parties and names

Mentions of ERP or AP vendors are descriptive. No sponsorship or compatibility certification is implied unless a written agreement says so (none at the time of this draft).

We are **not** affiliated with Evidence Room LLC (forensic animation / evidence-room.net). See Trademark notes.

Lemon Squeezy and Stripe are independent. Their MoR and payment terms are theirs.

---

## 7. Site content

Resources, charts, and posts are educational and commercial description. They are not advice to buy or refrain from buying any security or to take any tax position.

---

## 8. Limitation pointer

Liability, to the extent it can be limited, is addressed in the Terms. **Counsel must write that limit.** Nothing here is an additional warranty.

---

## 9. Short footer (site and checkout)

Evidence Room — AP Agent OS is a digital method and toolkit. It is not an ERP, payment service, audit, or compliance certification. It does not detect fraud, authorise payments, or guarantee savings, accuracy, or ROI. You remain responsible for implementation and for all payment decisions.

---

## Counsel checklist

- ☐ Conform to mandatory consumer wording
- ☐ Harmonise with insurance if any
- ☐ Confirm “not advice” is not over-claimed in Blueprint sales calls

# Refund Policy — Draft for Counsel and MoR Settings

**Lockup:** EVIDENCE ROOM — AP AGENT OS

**Status:** Working commercial recommendation. **Not legal advice.** Must be confirmed by counsel **and** aligned with Lemon Squeezy's merchant-of-record settings and any non-excludable consumer rights **before** publish.

**Last updated:** 20 September 2026

**Related:** 06\_SALES\_AND\_MARKETING/PRODUCT\_COPY.md (recommendation), 07\_LEMON\_SQUEEZY/CHECKOUT\_AND\_EMAILS.md

Do **not** advertise "100% money-back if you don't save money." That reintroduces a banned ROI frame.

---

## 1. Recommended policy (paid digital licences)

### Window

**14 days** from the time of purchase for **Starter, Professional, and Team**.

### We will refund (recommended)

1. You never received a working download or key **through no fault of your own**, and we could not re-issue within a reasonable time after you wrote to hello@evidenceroom.ai with your order ID.
2. The zip is **materially not as described** (advertised modules missing).
3. A duplicate charge for the same SKU, same buyer, same day.
4. We, or Lemon Squeezy, cancel the order before fulfilment.

### We will typically not refund (recommended, subject to law)

1. Change of mind after you have **successfully downloaded** the archive and had a reasonable chance to see that it is a document toolkit (not hosted software).
2. You wanted a result we **expressly disclaim** (savings, fraud detection, compliance, accuracy, autonomous payments).
3. You bought Individual and now want Team — that is an **additional purchase**, not a refund.
4. You redistributed the files or published them.
5. Chargeback already opened — we respond through that process.

**Counsel:** EU/UK and other consumer rules for digital content often require **express consent** to immediate delivery and acknowledgement that withdrawal is lost. Build that into checkout if those buyers are in scope. This draft must yield to those rules.

---

## 2. Diagnostic (\$0)

No payment. No refund mechanic. You may ask us to delete Diagnostic answers as Privacy allows.

---

### 3. Custom Blueprint

| Stage                                                                | Recommended treatment                                                                                         |
|----------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|
| Application submitted, we <b>decline</b> before kickoff, money taken | Full return of what was taken                                                                                 |
| Application accepted, <b>kickoff not started</b> , buyer withdraws   | Return minus any non-refundable application fee <b>only if</b> a fee was clearly disclosed — default: return  |
| After kickoff                                                        | Refund only for unused scoped fees as the acceptance note says; completed time is not “a zip you didn’t like” |
| We materially fail to deliver the scoped sessions                    | Remedy as the note / counsel says                                                                             |

Blueprint is not a “14-day digital goods” clone if it is a service. **Classification is a professional confirmation item** (it also affects MoR fit).

---

### 4. How to ask

Email [hello@evidenceroom.ai](mailto:hello@evidenceroom.ai) with:

- Lemon Squeezy order ID
- Email used at checkout
- Whether the download worked
- Short reason (access / misdescription / other)

Do not attach production invoices.

Lemon Squeezy, as merchant of record, will usually **execute** the refund on the original tender. Timing depends on them and the payment method.

---

### 5. Effect of a refund

The licence ends. The key may be disabled. You must stop using and redistributing the materials.

**Counsel: retain-for-records vs destroy.**

---

### 6. Chargebacks

If you open a dispute without contacting us about an access failure, we will provide delivery logs and the terms accepted. We prefer to fix access.

---

### 7. Taxes on refunds

Tax reversal is handled in the MoR/payment stack. We do not give tax advice about your recovery of tax.

**Confirm with LS:** whether platform fees are returned on refund (see fees notes).

---

## 8. Public short form (site footer)

14-day refunds on Starter, Professional, and Team if you cannot access the files or they are materially not as described. We do not refund because the method did not produce savings. Custom Blueprint is scoped separately. Lemon Squeezy processes refunds as merchant of record. Mandatory consumer rights, if they apply to you, are not excluded. This is not legal advice.

## 9. LS dashboard settings (operator)

- Refund window field: 14 days if available
- Partial refunds: only by human
- Disable licence on refund: yes
- Do not enable a “satisfaction guarantee” template that mentions ROI

## Counsel / tax / MoR checklist

- ☐ Digital-content withdrawal wording
- ☐ Service vs goods for Blueprint
- ☐ Fee clawback
- ☐ Chargeback policy
- ☐ Record-keeping of accepted terms

# AI-Use Disclosure — Draft

**Lockup:** EVIDENCE ROOM — AP AGENT OS

**Status:** Working disclosure for site, checkout, and toolkit zip. **Not legal advice.** Not a substitute for the EU AI Act, US state, or other AI-labelling rules — **counsel must map those if they apply to this product or to how buyers use models.**

**Last updated:** 20 September 2026

**Related:** Privacy, Disclaimer, Licence Terms

---

## 1. What this document covers

Two different facts:

1. **How Evidence Room used AI tools** when writing some of the toolkit and commercial copy.
2. **How buyers may use AI models** later, inside a chartered AP agent, in *their* environment.

They must not be collapsed. Buying Professional does **not** mean we run a model on your invoices.

---

## 2. Our use of AI in creating the materials

Some research collation and draft language for the method, examples, and marketing files was produced with the assistance of AI writing tools. A human editor is responsible for the published method, the payment-hold rule, the banned-claim list, and the decision to ship.

We do not claim the OS was “written entirely by hand” or “written entirely by AI.” Both would be false.

Fictional operating details (Northline Industrials) are invented illustrations, not extracted from a real customer’s books.

**We do not use your Diagnostic free-text to train a public model.** Internal review of answers, if any, is for product clarity and abuse, as Privacy allows.

---

## 3. What the product is, computationally

The licensed zip is **documents and worksheets**. It is not a hosted model, not a plugin that calls a model, and not an automated decision system we operate on your employees or vendors.

The Diagnostic band is a simple score-to-label on answers you typed. It is a reading aid. It is not a credit, employment, or legal decision.

---

## 4. Your use of AI after purchase

The method assumes you *may* later attach models (yours or a vendor’s) to chartered roles. That use is **yours**.

The method requires:

- a named human owner per agent
- evidence before permission
- no agent payment release
- flags treated as hypotheses, not fraud verdicts

- change control for prompts and model versions
- sampling rather than faith in fluency

If you ignore those rules, you are not “using Evidence Room incorrectly” in a technical sense — you are **leaving the method**. The disclaimers still apply.

---

## 5. What you must not do with our files and models

- Do not upload the licensed archive to a **public** prompt marketplace or public training corpus (Licence Terms).
- Do not tell a model it may “release the run if everything looks fine.”
- Do not present model output as a **compliance certificate**, **fraud finding**, or **accounting fact** without a named human and a packet.
- Do not send us production invoices for “the AI to review.”

Private, internal use of excerpts with a model **under your controls** for your implementation is a normal way to apply a written method — it does not expand your licence to publish the OS.

---

## 6. Accuracy and hallucination

Language models invent citations, amounts, and vendor names. The method treats that as expected. That is why L0 exists, why packets are required, and why payment is not on the ladder.

We do not warrant that any model, including ones used to draft our own sentences, is accurate.

---

## 7. Human involvement in *our* operation

Fulfilment of keys and zips is automated by Lemon Squeezy. Support replies are human. Blueprint, if accepted, is human-facilitated. We do not operate an AP agent on your stack.

---

## 8. Short footer (site)

Some Evidence Room materials were drafted with AI writing tools and edited by a human. The product is a document toolkit, not a hosted model. We do not run AI on your invoices when you buy Professional. If you later use models in AP, the method requires evidence before permission and a human payment hold. This is not a legal certification under any AI regulation.

---

## 9. Counsel / compliance checklist (internal)

- [ ] Whether this disclosure must be more prominent in a given market
- [ ] Whether the Diagnostic is an “AI system” under a specific statute (likely a stretch; do not self-classify without counsel)
- [ ] Record of human editorial control
- [ ] Training-data representations (we should not claim “never trained on customer AP data” beyond what we actually do)
- [ ] Affiliate claims about “our AI” — forbid

# IP Cleanliness Checklist

**Purpose:** Keep Evidence Room — AP Agent OS independently authored and licensable.

**Status:** Internal operating checklist. **Not a legal opinion.** Counsel should review the zip before launch.

**Last updated:** 20 September 2026

## 1. Authorship rule

Every file we sell or publish as ours must be **independently authored** (including AI-assisted drafts that a human edited) or used under a **written licence** we can point to.

We do not paste:

- vendor documentation from SAP, Oracle, Microsoft, Coupa, Tipalti, BILL, etc.
- another firm's control frameworks (COSO, NIST, ISO) as if we wrote them — **refer by name at most, do not reproduce tables**
- another course's AP agent pack
- scraped paywalled research
- Evidence Room LLC forensic-animation scripts or images (different company)

## 2. Pre-launch scan of the commercial zip

For each file in ER-START / ER-PRO / ER-TEAM:

| Check                                                  | Pass? | Notes |
|--------------------------------------------------------|-------|-------|
| Copyright header or LICENCE.txt present                |       |       |
| No third-party doc pasted in                           |       |       |
| No customer's real invoices, VIBNs, or employee names  |       |       |
| Northline labelled fictional where numbers appear      |       |       |
| No ERP logos                                           |       |       |
| No "certified / compliant with [standard]"             |       |       |
| No guaranteed savings / fraud / ROI language           |       |       |
| Payment hold intact                                    |       |       |
| No stock photos with unknown licences                  |       |       |
| Fonts in PDFs licensed for distribution                |       |       |
| Diagrams drawn by us                                   |       |       |
| Quotes attributed or removed                           |       |       |
| No GPL/AGPL inbound that would force us to open the OS |       |       |

Sign and date the completed table. Keep it with counsel's launch memo.

### 3. Trademarks of others

**Allowed:** descriptive sentences (“maps onto SAP, Oracle, Dynamics, NetSuite, Workday”).

**Not allowed:** logo walls, “SAP-approved,” using their word marks as our product names, keyword ads that confuse.

**Our lockup** must stay distinctive: EVIDENCE ROOM — AP AGENT OS. See `TRADEMARK_AND_DOMAIN_NOTES.md`.

### 4. People and data

| Do not include                                                                | Why                                                  |
|-------------------------------------------------------------------------------|------------------------------------------------------|
| Real vendor bank details                                                      | Payment-data hygiene; not our dataset                |
| Real employee emails beyond optional testimonials <b>with written consent</b> | Privacy                                              |
| Real invoice PDFs in “examples”                                               | Create fictional ones or redact until unrecognisable |
| Photos of staff without a release                                             | Publicity rights                                     |

Diagnostic free-text: if someone pasted a real invoice, delete per Privacy and do not file it in the “example bank.”

### 5. AI-assisted text

- Run a human edit for voice, banned claims, and factual fee citations.
- Do not leave model-invented case studies that look real.
- Do not invent court cases, statutes, or “according to Gartner” numbers.
- Fee figures must cite LS/Stripe URLs we actually opened.
- If a passage is too close to a known vendor’s white paper, rewrite from the method, not from memory of their PDF.

### 6. Marketplace derivatives

Derivatives (`MARKETPLACE_DERIVATIVES.md`) must be **new artefacts** (posters, pads), not a unzipped Professional. Shop name should not impersonate Evidence Room LLC.

### 7. Contributors and contractors

Anyone who writes into the toolkit signs (or is contracted with) an IP assignment or work-made-for-hire **as counsel specifies**. Do not accept “I dropped this prompt pack in the folder.”

### 8. Inbound open source

Default: **no inbound copyleft** in the sold zip. If we later add a script, record its licence. Markdown method files stay our copyright.

## 9. Outbound licence hygiene

Buyers get a **use licence**, not a right to relicense. If we find our zip on a marketplace:

1. Confirm it is ours (hash / unique phrase).
  2. Revoke keys if identifiable.
  3. Takedown notice — **counsel**.
  4. Do not publicly accuse without review.
- 

## 10. Third-party research and numbers

If we cite a study, we keep the citation and the date we read it. If we cannot cite it, we do not use the number. We do **not** publish Diagnostic aggregates as “the state of AP agents” without a methodology and counsel.

---

## 11. Music, icons, photography

Prefer type and line diagrams. If icons: confirm licence allows commercial embedding in a sold PDF. No random Google Image.

---

## 12. Launch sign-off (internal)

| Role                                  | Signature | Date |
|---------------------------------------|-----------|------|
| Editor (banned claims + payment hold) |           |      |
| Fulfilment (zip contents = listings)  |           |      |
| Counsel (licence + TM + privacy)      |           |      |
| Store owner (LS live flip)            |           |      |

No live flip with empty signatures.

---

## 13. Recurring

Quarterly: re-scan new files, re-read LS fees before we quote them externally, re-check domain WHOIS and lookalike sites.
