Product	AP Agent OS
Version	1.0
Date	September 2026
Use	Implementation toolkit

Responsibility is earned.

Evidence Room design system

Wordmark. EVIDENCE ROOM — letterspaced small caps, bronze on paper or paper on ink.

Product mark. AP AGENT OS sits under the wordmark in Inter, never as a cute logomark creature.

Logo direction. A thin bronze horizontal rule, not an icon. If an emblem is required later: a rectangular “room” frame with a single bronze baseline (the evidence line). No robots, brains, sparks, or neural nets.

Colour. Ink #121614 · Paper #F3EFE6 · Bone #E6DFD2 · Bronze #8C7349 · Slate #4A524C · Rule #C9C2B4 · Signal #7A2E24 · Ledger #2C5A4A.

Type. Display Noto Serif. Text Inter. Data JetBrains Mono.

Charts. Bronze for Evidence Room series, ink for baseline, slate for comparators. No 3D. No rainbow. Cite under the chart.

Tables. Ink header, paper/bone zebra, bronze underline on header.

Callouts. Bone panel, 2.2mm accent bar: bronze note, ledger action, signal risk, ink ownership.

Covers. Ink or paper field, bronze rule, serif title, mono product code, no photography at launch.

Product-family architecture. Same cover grid; tier expressed as a mono code (FREE / ST / PRO / TEAM / CUS) and a single bronze weight change — not a new colour per SKU.

This material is an implementation toolkit. It is not legal, tax, accounting, audit or investment advice. Agents do not authorise payments. Humans remain accountable. Statistics are cited in the Research Ledger.
