

Evidence Room AP Agent OS

Start here. Then do the work in order.

Product	AP Agent OS
Tier	All tiers
Version	1.0
Date	September 2026
Use	Navigation and fulfilment

Responsibility is earned.

What you bought

Evidence Room AP Agent OS is an operating system for designing, governing and measuring AI agents across Accounts Payable.

It does not replace your ERP, AP automation platform, bank, or AP team. It gives Finance a shared language, a method, and the artifacts required to put agents to work without losing control.

A purchaser should be able to start on Monday.

How to navigate

If you bought	Open first	Then
Free Diagnostic	01_FREE_AP_AI_READINESS	Score the operation. Do not buy more until you know the first constraint.
Starter (\$79)	02_AP_AGENT_STARTER/START_HERE.md	Charter one agent. Map one process. Use the taxonomy.
Professional (\$199)	03_AP_AGENT_OS_PRO/00_START_HERE.md	Full 16-agent OS, controls, KPIs, testing, business case.
Team (\$499)	04_AP_AGENT_OS_TEAM/00_FACILITATOR_BRIEF.md	Run the workshop. Brief the steering committee. Track benefits.
Custom Blueprint	05_CUSTOM_BLUEPRINT	Complete the intake. Evidence Room returns the assessment pack.

Monday sequence (Professional)

1. Read this file and the Quick Start (30 minutes).
2. Complete the readiness diagnostic with the AP manager in the room (60–90 minutes).
3. Pick one bounded process (example: missing goods receipts on PO invoices).
4. Map it with the Observe → Extract → Structure templates.
5. Write one Agent Charter at Level 0 or Level 1.
6. Define three controls and four KPIs before any tool is switched on.
7. Collect 50–100 historical cases for a dry test.
8. Brief the CFO with the one-page summary template.

Do not start with sixteen agents. Start with one exception class that is frequent, expensive, and measurable.

What this is not

- A ChatGPT prompt pack
- An autonomous payment system
- A guarantee of savings, fraud detection, compliance or ROI
- An ERP or accounting system
- Consulting jargon without artifacts

Product principle

Every page should answer at least one: what to do, how, who owns it, what can go wrong, how to control it, how to measure it, what evidence proves it.

Licence in one sentence

You may use these materials inside the licensed organisation (or as a named individual on the Individual / Professional licence). You may not resell them, republish them as your product, or train a competing commercial product from them.
