

Human vs agent vs deterministic

Product	AP Agent OS
Tier	Starter
Version	1.0
Date	September 2026
Use	Implementation toolkit

Responsibility is earned.

Decision

Score the task 0–2 on frequency, rule clarity, data completeness, reversal cost, regulatory sensitivity, supplier impact.

Outcome	When
Deterministic automation	Stable key, structured compare, ERP already can
Agent recommend / prepare	Language, ranking, drafting, clustering
Human only	Post, pay, bank, access, policy, legal admission

What can go wrong
Do not re-implement three-way match in an LLM.

Starter governance checklist

- ☐ Named human owner
- ☐ Written exclusions
- ☐ Level 0 or 1
- ☐ Payment release is a different human
- ☐ Approved model list
- ☐ Invoice text treated as untrusted
- ☐ Override reason codes
- ☐ Kill switch
- ☐ Retention thought through
- ☐ No consumer LLM paste of production invoices

This material is an implementation toolkit. It is not legal, tax, accounting, audit or investment advice. Agents do not authorise payments. Humans remain accountable. Statistics are cited in the Research Ledger.
