Facilitator rules

- No “autonomous AP” language.
- If data access is unknown, the first agent stays at Level 0.
- Capture parking-lot software wishes; do not design around them.

Pre-work (send 10 days out)

1. Diagnostic questions A1–F6
2. Last quarter volume, exception top 10, FTE
3. Current SOP (if any)
4. Who may authorise payment (names/roles)
5. List of tools that already touch AP

This material is an implementation toolkit. It is not legal, tax, accounting, audit or investment advice. Agents do not authorise payments. Humans remain accountable. Statistics are cited in the Research Ledger.
