Home

Kicker. Evidence Room

H1. Responsibility is earned.

H2. The operating system for building, governing and scaling AI agents across Accounts Payable.

Deck. For CFOs, Controllers, Heads of AP and transformation leaders who need agents they can govern — not another prompt pack, and not an ERP replacement.

Primary CTA. Assess your AP agent readiness

Secondary. Explore the AP Agent OS

In five seconds: what / who / improves / different. Different: It does not replace the AP stack. It helps you design the agent layer that operates across it.

Strip. Humans authorise payments. Autonomy is promoted. Evidence is required.

Problem. Approvals stall. Exceptions repeat. AI is already in the building without a job description. (Cite Ardent 2025 challenges lightly.)

Workforce. Diagram of 16 agents.

Levels. 0–4.

Proof style. Method, taxonomy, controls, KPIs — not testimonials you do not have at launch.

Tiers. Free / 79 / 199 / 499 / Blueprint.

Close CTA. Same pair.

AP Agent OS

Longer product story: architecture, method, governance, what is not included (software, payment). Link to Professional and Team.

Free Diagnostic

Promise the score and the scorecard. Email gate. Show 3 example questions. No production data upload.

Professional / Team / Custom

Match Lemon Squeezy copy. Team emphasises workshop-tomorrow. Custom emphasises intake completeness.

Method

The ten steps. Duration honesty.

Resources

Ledger summary (not the full competitor file), sample charter, one article.

About

Evidence Room publishes operating systems for Finance agents. AP is first. Future verticals named, not sold.

Privacy / Terms / Disclaimer

See legal folder. Link, do not invent new promises.

Landing page /ap story

1. Hero (H1 + CTAs)
2. AP problem (approvals, exceptions, cost orientation)
3. What agentic AP means here (roles, not magic)
4. Workforce diagram
5. What the toolkit contains
6. Responsibility model
7. KPI families
8. Governance / payment rule
9. Roadmap phases
10. Tiers
11. Preview frames (generated covers)
12. Who it is for / not for
13. FAQs
14. CTA

Visual: paper, ink, bronze rule, tables, no stock AI art.

This material is an implementation toolkit. It is not legal, tax, accounting, audit or investment advice. Agents do not authorise payments. Humans remain accountable. Statistics are cited in the Research Ledger.
