

Evidence Room AP Agent OS — Team Edition

Team Edition Overview

The AP Agent OS Team Edition is designed for enterprise transformation initiatives. It includes facilitation materials, workshop decks, stakeholder interview guides, change management toolkit, and executive communication templates.

Workshop Programme

A structured 2-day workshop covering: current-state assessment, agent architecture overview, first agent selection, governance design, KPI establishment, and 90-day implementation planning.

Stakeholder Engagement

Interview guides for CFO, AP Manager, IT, Internal Audit, Procurement, and Shared Services leaders. Process-owner questionnaires for detailed discovery.

Change Management

Training materials for AP team, executive communication templates, benefits realisation tracker, and steering committee reporting pack.

Enterprise Governance

Extended governance pack including risk register, control matrix, periodic certification checklist, and incident response procedures.
